Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The rejection under 112, 1st paragraph may be withdrawn in view of the claim amendments and the evidence provided in the specification and IDS. With regards to rejection under section 103, applicants indicated that the amended claims are limited to an rAAV vector consisting of the AAV ITR promoter, and using the AAV ITR promoter is a surprise finding, because factor VIII is considered a peptide difficult to be expressed at high level and AAV ITR is a weak promoter. The Examiners indicated that claims as written do not require the levels of expression, thus, the rejection stands.
